

Nidd Valley Road Runners.

Transport Policy.

When possible, members travelling to races and events should consider sharing transport.

NVRR will consider hiring a suitable vehicle for occasions when club championship races, or club related events, involve large numbers of our members and there is a reasonable distance to travel.

The decision on how this is funded will depend on the financial situation of club funds at the relevant time. Members may need to contribute financially.

Securing a place on the transport will be based on the following, in order of priority:-

- Those members running the race or participating in the event.
- Coaches or leaders in running fitness who have a role to play.
- Invited members of other local clubs who are running the race or participating in the event.
- Club members.
- Family and friends of club members.

NVRR Juniors.

Consideration will be given to sharing the coach with the junior section on each occasion where there are associated junior events. Account will be given to the numbers involved, the nature of the race or event and the welfare and safeguarding of the children.
